

Progress on Each Measurable Objective

Goal:1 During the 2008-09 school year the District will implement strategies to develop and enhance the structures and supports to sustain service learning. The MSAD No. 75 community is aware of Service Learning and its value.

Measurable Objective: A.

Engage stakeholders in exploring the merits of a policy requiring community service of our students.

Progress Made (mark one): Didn't Meet Partially Met Met X Exceeded

Evidence:We will have evidence of discussions among stakeholder groups, the research that has been identified and notes from the policy and board committee discussions.

Where in your filing System: Board website and ELGG

Goal:1. During the 2008-09 school year the District will implement strategies to develop and enhance the structures and supports to sustain service learning. The MSAD No. 75 community is aware of Service Learning and its value.

Measurable Objective:B. Develop a plan so that each school commits to ensuring that service learning occurs each year at each school site.

Progress Made (mark one): Didn't MeetX Partially Met Met Exceeded

Evidence:We will have the agreements from each school. We will have our District goals and outcomes for 2009-10 which include this expectation. Meetings and discussion will be held in February 2009.

Where in your filing System: Will be in Board of Directors minutes website and service learning website and at each school

Goal:1. During the 2008-09 school year the District will implement strategies to develop and enhance the structures and supports to sustain service learning. The MSAD No. 75 community is aware of Service Learning and its value.

Measurable Objective:C. Generate student, parent and community support for service learning through exposure, experience and online communication tools.

Progress Made (mark one): Didn't Meet Partially Met Met X Exceeded

Evidence: We will have a revised electronic presence that provides information about service learning and provides the opportunities for those interested to collaborate and learn more from each other. We will have notes from meetings that were held to share information about service learning. We will have articles that were published in local newspapers that feature service learning in our schools and community.

Where in your filing System: www.link75.org Service Learning website and ELGG

Goal:2. During the 2008-09 school year the District will increase our understanding our "communities" and the needs of our communities

Measurable Objective: Develop a data-base of various communities related to M.S.A.D No. 75, outlining their functions, contacts and needs.

Progress Made (mark one): Didn't MeetX Partially Met Met Exceeded

Evidence:We will have an online data-base that community groups will access to share with us their profiles and needs; this will include various school communities.

Where in your filing System: online through website

This will be available by Spring 2009
