

The M.S.A.D. 75 Education Foundation is a nonprofit organization created to support innovative projects and programs that enhance our public schools. Our goal is to expand educational opportunities, foster partnerships between our schools and community groups, and advance academic excellence in SAD 75. The Foundation will support endeavors that advance one or more of the following guiding principles:

- ***Student readiness:*** Help every student to be healthy and ready to learn.
- ***Innovation:*** Promote new approaches to teaching and learning, including the effective use of technology and community based learning.
- ***Enrichment:*** Broaden educational opportunities beyond the school day, school year and K – 12 programming. Expand the horizons of all students with enrichment activities such as school presentations, career learning, visiting authors, extra-curricular activities and artists-in-residence.
- ***Capacity:*** Increase learning capacity by enhancing curriculum and staff development opportunities.
