Please explain the proposed technology integration. Be sure to include the following:

- Maine Learning Results addressed by this project.
- Technology standard addressed by this project (teacher or student). You can find these standards at: http://cnets.iste.org/teachers/t_stands.html or check with your technology support person in your building.

W

Please explain how this team will work together to support this integration. Include:

- A timeline
- A brief description of what the students/teachers will be learning
- How technology will be used in the process
- How evidence of learning will be collected

Explain what resources you will need to complete this project along with a cost breakdown. We encourage you to figure time into this proposal remembering that you have professional days and observation days available to you. Additional time may be budgeted into the grant if needed. Think about software, online subscriptions, and/or software that could help you to complete this project.

In accepting this grant you are required to participate in a Technology Integration Presentation Night. This event will occur on May 11, 2006 at Mount Ararat High School from 4:30-6:30 p.m. Staff members, community members as well as School board members will be invited to attend this presentation. How else would the team suggest that the results of their project be shared across the MSAD 75 community?
