Subject: Staff Computer Purchase through Payroll Deduction

We have the opportunity again this year to benefit from the MSAD No. 75 computer payroll deduction plan. You can purchase a computer and have the cost deducted from your paycheck during the next school year, interest free. You can purchase a laptop, handheld, or desktop computer (including bundled monitor, printer, and software) not to exceed a total price of \$2,000. Phones and Internet/phone services are not eligible. For more information see the attached PDF documents or visit the following:
